ABDUL WASAY

Lahore Pakistan

+92-3315789320| officialtaha004@gmail.com LinkedIn | GitHub

Results-driven Full Stack Developer with a strong focus on building scalable backend architectures and interactive frontend experiences. Proficient in the MERN stack (MongoDB, Express.js, React, Node.js), with a proven track record of delivering AI-integrated solutions and secure data management systems. Passionate about clean code, modular architecture, and optimizing web performance.

TECHNICAL SKILLS

Frontend: React.js, Tailwind CSS, HTML5, CSS3, JavaScript (ES6+), Zustand ,**Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication, Database **& Tools:** MongoDB, Mongoose, Git, GitHub, Postman, Expertise**:** Modular Architecture, File System Management, AI API Integration, CRUD Operations

---

EXPERIENCE

Elite Teck | Full Stack Developer *January 2026 – March 2026 | Abbottabad, Pakistan*

Developed and maintained full-stack web applications using **React** and **Node.js**, ensuring high performance and responsiveness.

Collaborated on the design of RESTful APIs and integrated MongoDB for efficient data persistence and retrieval.

Worked closely with the design team to translate UI/UX wireframes into high-quality code.

Implemented secure authentication flows using **JWT** to protect user data and resources.

University Projects | Junior Web Developer *January 2023 – December 2024*

Led the development of multiple university-level web applications, focusing on logic building and database schema design.

Demonstrated proficiency in version control using **Git/GitHub** for collaborative project management.

Researched and implemented emerging backend technologies to improve server-side efficiency.

PROJECTS

AI Resume Builder *Full Stack Project*

Architected a professional resume-building platform integrated with **OpenAI API** to generate tailored career content.

Built a dynamic frontend allowing users to preview changes in real-time and download resumes in professional formats.

Managed backend logic for user profiles and data storage using Node.js and MongoDB.

Secure Drive & Notes App *Backend Project*

Developed a secure cloud storage solution where users can upload, manage, and delete files with high reliability.

Integrated a note-taking feature with full CRUD functionality and data encryption for privacy.

Implemented file-type validation and size-limit handling to optimize server storage.

Car Rental E-Commerce System *Full Stack Project*

Built a dual-sided marketplace allowing users to rent cars based on location and car owners to list their own vehicles for rent.

Developed an advanced filtering system (area-based, price, and model) to enhance the user search experience.

Designed a robust dashboard for owners to manage bookings and track vehicle status.

EDUCATION

COMSATS University Islamabad, Abbottabad Campus *BS in Computer Science*

CERTIFICATIONS & ACHIEVEMENTS

Expertise in **Git/GitHub** for professional team collaboration.

Strong foundation in **Data Structures and Algorithms** (DSA).

Active contributor to open-source projects on GitHub.
